

Introduction to Starline Crypto

Starline Crypto is the next evolutionary Decentralized Finance (DeFi) cryptocurrency that strives to provide wide-ranging DeFi services from a leading NFT platform to mobile esports, casual, and social games.

A new gaming experience with real ownership & value Online gamers can bring or trade their assets from game to game, community to community, growing their digital wallet with real value as they play. You can pick an NFT with a unique look and gameplay style, you will be rewarded for actions or challenging opponents in the fascinating world of the Play2earn game.

Starline also endeavors to set up a platform for NFT artists and developers. A single platform with the ability to list, mint, rank top projects by categories, volume, owner count and most importantly rank the individual NFTs in a project by rarity to allow potential NFTs buyers to purchase the floor NFTs or the alphas. Ethereum, the main chain, and in addition, Solana and Polygon chain will be offered as part of the secondary NFT market to cater for all demographics of NFTs collectors.

Why Starline Crypto?

Starline will develop games and communities to manage virtual goods and in-game items across multiple platforms. Monetization using Starline Coin will be a key focus with robust features and toolsets provided. Great benefits will be gained by utilizing a decentralized platform and the supporting frameworks.

Gamers can buy & sell items with no risk of fraud. trade between gaming items from different games using Bancor/Uniswap for liquidity, take your currency with you across any community or game and retain value. own valuable currency and rare items that can never be taken away. Use Starline's marketplace and social network to find and trade game items. earn Starline coins playing games and convert custom virtual goods directly back to coins and retain value.

We see a future for the financial world where all assets are tokenized on-chain and people have efficient ways to transfer or manage their funds. At Starline, we always look ahead which is why we've designed our products to be seamless, secure and instant -- the financial services of tomorrow.

Unlock the Value of Digital Assets

Make your idle digital assets work for you with Starline. Start earning up to 16% APR, paid out monthly. Instead of simply holding idle digital assets, investors; miners; and entrepreneurs have the opportunity to set up and earn interest in crypto with Starline; you can earn up to 16% APR on SLC. Grow your portfolio exponentially while keeping your crypto safe.

Advanced Trading Tools

Execute short and long-margin trades with up to 5x leverage. The SLC in your portfolio will be used as collateral to receive funds. Set up out-of-the-box strategies like Grid Trading Bot, DCA Bot (Martingale), Rebalancing Bot and Spot-Futures Arbitrage Bot to automate your probability of turning a profit.

Easily integrate our open API for automated strategies and utilize the full Starline Trade functionality. Place a stop market order to automatically lock in profits or limit losses. Minimize price impact of larger orders with Starline Trade. Amplify your buying or selling power by using 2x leverage.

Use your total portfolio balance as collateral to offset unfavorable positions from futures with profitable ones from spot, and vice-versa.

Decentralized e-commerce/De-commerce

Starline Shop is an online ecosystem created to provide shoppers and merchants with a seamless and immersive crypto e-commerce experience. Our vision is to become the turning point for the adoption of crypto by being the most reliable, efficient, and user-friendly crypto e-commerce ecosystem.

Starline Shop is the very first Metaverse shopping mall. An innovative and immersive metaverse marketplace that offers companies, brands, and small businesses the opportunity to buy and sell their products. Starline shop is Starline's own inhouse payment processor and is a vital step of the company's mission to create a streamlined crypto e-commerce experience. Starline shop is built to be a virtual marketplace that allows shoppers and merchants to enjoy a unique Web3 e-commerce experience through the technology of the Metaverse.

NFT Marketplace

Starline would offer a non-fungible token (NFT) marketplace to be sold directly at a fixed price or through an auction on Ethereum or the Solana chain. NFT airdrops may also be conducted on Starline's NFT Marketplace for new NFT projects which can help to increase visibility. Likewise, holders of \$SLC may also be airdropped some of the new NFT projects listed on Starline NFT Marketplace.

Holders of \$SLC may also have a choice to claim some of the free airdrops on the NFT marketplace like what we observe on Crypto.com.

Starline's NFT Marketplace would be equipped with such a tool to rank any NFT projects from #1 to the last NFT within a particular project based on their unique characteristics, transaction history and volume. At the moment, OpenSea does not offer such capability and potential NFT buyers have to use another website to look up the rarity factors of the NFT that they are intending to purchase. However, with Starline NFT Marketplace, it will be a one-stop shop with the listing, minting, and ranking all in a single platform.

By purchasing a Star Series NFT, you are taking the plunge into a rich, new web3 metaverse and exciting new game. Being one of the first to plunge in will certainly have its privileges! Every NFT comes with a custom animated video clip and PFP-optimized image of your Game Champs avatar so that you can proudly display your elite status everywhere!

Esports, Casual and Social Gaming

The global gaming market is experiencing explosive growth, reaching US\$108.9BN in 2017 and a projected US\$128.5BN by 2020. Starline Crypto is headquartered in Dubai, providing the perfect springboard to further target the Chinese, Japanese and Korean markets. 58% of the growth in 2016 came from Asia-Pacific countries. It's estimated that the overall value of the Global Social Gaming market by 2019, is to reach US\$17.4N. Virtual goods, advertisements, and lead generation offers are the main revenue generation sources of the global social gaming market. Among these, the virtual goods segment is likely to expand the fastest at a compound annual growth rate of 15.20% over the forecast period.

Gameplay

You can always play the game for fun with a practice character, but all gameplay that provides token rewards will require a Starline NFT. When the 3D mobile game launches, you will be able to access premium opportunities to play using your Star series NFT.

Starline NFTs can be purchased from other players, minted in the game with RPG/breeding mechanics, or rented from other players as the game's ecosystem develops. There are only 3,693 Champs in the Starline Series. Non-Starline Champs NFTs will be recruitable in the game, but these additional NFTs will not enjoy the rights and privileges of the Starline Series. Games and communities can mint unique in-game items, currencies, and privilege tokens using Starline Coins as the parent currency. These assets can be converted back into Starline Coins by anyone holding them, at the original exchange rate at which they were minted.

Appearance

Each of the 3,693 Champs Starline Series NFTs is an excellent PFP with super stylish moves and with accessories that sets them apart from all other NFTs, both as playable characters in the game and as badges of honor on social media.

Each Starline series NFT is also unique in appearance and gifted with a name that gives it individuality; the non-Starline NFTs will have to earn the right to be named and are not necessarily guaranteed to be visually unique.

VIP In-Game Earning Opportunities

Starline Series NFTs are treated as VIPs across the game. Starline Series Champs have special token-based tournaments reserved exclusively for them, allowing holders to earn and win even more tokens as compared to other players. These exclusive tournaments are also tied to season-based challenges, making it easier for a Starline Champ to complete quests and unlock amazing token rewards each season.

Exclusive Gameplay Benefits

The VIP treatment doesn't just end with exclusive tournaments and seasonal challenges for exclusive rewards. Starline Series Champs will have more recruitment slots to generate Champ NFTs as compared to the non-Starline Champs, giving them unique advantages when it comes to recruiting more Champs NFTs to own or "rent".

6 months following the Starline Coin crowd sale and the deployment of the wallet and core SLC features, coins will slowly be released to approximately 3,000 verified gaming communities on Starline. The number of coins each community receives will be

calculated based on their previous store volume sales, member count, audience visits and various website activity metrics.

Tokenomics

Total supply 100,000,000

40% to be sold by Starline to pre-sale purchasers pursuant to a Simple Agreement for Future Tokens ("SAFT") offering or through Starline Approved Affiliates. 10% reserved by the Company to incentivize the community, beta testers, marketing and strategic partners.
